

GRP Handrail Fittings

MADE FOR DEMANDING ENVIRONMENTS

The Interclamp GRP range is built for demanding environments and everyday handrailing alike, offering a robust, chip-resistant alternative to powder-coated steel.

The material is naturally corrosion-free, non-sparking, and resistant to a wide range of chemicals, making it a trusted choice for water treatment, chemical processing, marine, offshore, and specialist manufacturing applications. Low electrical conductivity makes it well-suited to installations near electrical infrastructure including railways, while low thermal conductivity ensures fittings remain comfortable to the touch in extreme temperatures.

The range is fire resistant and classified as BS 476: Part 7: 1997 Class 2, tested by a UKAS accredited laboratory.

KEY FEATURES

**ROBUST
AND DURABLE**

**GRADE 316 STAINLESS
STEEL FASTENERS**

**UV-RESISTANT FOR
LONG SERVICE**

**FIRE RETARDANT
AND RESISTS MOST
CHEMICALS**

**LOW ELECTRICAL
CONDUCTIVITY**

**LIGHTWEIGHT FOR
TRANSPORT**

INDUSTRIES

Water & Utilities: Ideal for water treatment plants, sewage facilities, and pumping stations where moisture and aggressive atmospheres are constant.

Chemical & Processing: Resistant to a wide range of chemicals, suitable for processing plants, refineries, and pharmaceutical sites.

Marine & Offshore: Salt-resistant and impact-tough for offshore platforms, ports, shipbuilding, and dockyards.

Rail & Transport: Low electrical conductivity makes GRP the safe choice for trackside infrastructure and rail depots near live installations.

Energy: Suited to power stations, substations, and renewable energy sites where weather resistance and low conductivity are essential.

PRODUCT SIZING

PRODUCT	OD	ID	HEIGHT	THICKNESS	LENGTH
GRP Handrail Fittings	-	50	-	-	-
GRP Tube	50	40	-	5	5000
GRP Kickplate	-	-	150	5	5000

Please Note: All measurements are in millimetres

PRODUCT RANGE

AVAILABLE COLOURS ● Yellow ● Grey

FITTINGS

			
FI101 Short Tee	FI104 Long Tee	FI116 Middle Corner	FI119 Cross
			
FI120 120° Elbow	FI121 135° Elbow	FI122 150° Elbow	FI125 90° Elbow
			
FI128 Top Corner	FI129 60° Tee	FI130 60° Cross	FI131 Wall Flange
			
FI145 Side Palm Fixing	FI166 Adjustable Knuckle	FI167 Double Swivel Combination	FI173 Single Swivel Combination
			
FI232 Base Flange	FI764 Inline Adjustable Knuckle	FI300 M6 Rivet Nut & Bolt	

ADDITIONS

		
FIT50X5 Tube - 5000mm Length	FIKPI50X5 Kick Plate - 5000mm Length	FI395D50 Self-Closing Gate

FIXINGS FOR FITTINGS SOLD SEPARATELY
